

Dear Dr. Henney,

I am writing to express my concern over FDA's regulation of genetically engineered (GE) food to ask that the agency's current policies be changed, and to support all points in docket #00P-1211\CP1

☒ All GE Foods should be labeled so I informed and have a choice.

☐ GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

☒ There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.
